TOWN OF WESTBROOK
NOEL BISHOP, FIRST SELECTMAN

866 BOSTON POST ROAD
WESTBROOK, CONNECTICUT 06498
TEL (860) 399-3040
FAX (860) 399-3015
WWW.WESTBROOKCT.US

The Honorable Noel Bishop
First Selectman
Town of Westbrook

The Honorable Paul Connolly
Chairman, Board of Finance
Town of Westbrook

To the Honorable First Selectman, Chairman, Board of Finance and the Citizens of the Town of Westbrook,

The Comprehensive Annual Financial Report (CAFR) of the Town of Westbrook for the fiscal year ended June 30, 2013 is hereby submitted. The purpose of this report is to provide citizens, board members, investors, grantor agencies and other interested parties with reliable information about the Town of Westbrook. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the Town. The intent is to provide reasonable assurance that the financial statements are free of any material misstatements.

The Town is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1996 and U.S. Office of Management and Budget Circular A-133, Audits of State, Local Governments and Non-Profit Organizations. The Town is also required to undergo a Single Audit under Public Act 91-401 of the State of Connecticut. Information related to these single audits will be issued separately.

Seward and Monde, CPAs, have issued an unmodified ("clean") opinion on the Town of Westbrook's financial statements for the year ended June 30, 2013. The independent auditors' report is located at the front of the financial section of this report. Management's discussion and analysis (MD&A) immediately follow the independent auditors' report and provides a narrative overview of the basic financial statements. The MD&A is intended to complement this transmittal letter and should be read in conjunction with it.

This report includes all of the funds and accounts of the Town. It includes all activities controlled or dependent on the Town. The Westbrook Board of Education (grades K through 12) as well as various boards and commissions are component units of the Town; therefore, these activities are included in this report.

PROFILE OF THE TOWN OF WESTBROOK

Originally a part of Old Saybrook, the Town of Westbrook was incorporated in 1840. It is located thirty-five miles east of the City of New Haven and twenty-one miles west of the City of New London on the Long Island Sound. Located in Middlesex County, Westbrook comprises approximately 16.2 square miles. The Town is bounded by Essex and Deep River on the north, Old Saybrook on the east, Clinton on the west and Long Island Sound on the south.

The Town is bisected by U.S. Route 1 and Interstate Route I-95 (the New York - Providence - Boston corridor) which has two exits to inland and shore points in Westbrook. The Town is also traversed by State Highways 145, 153 and 166. In neighboring Essex, Route 9, a limited access highway, connects to Hartford.

The Town's population has grown from 2,400 in 1960 to 6,938 in 2010, according to the 2010 Census.

Given the Town's location and accessibility to major roadways, the Town contributes a great deal of its residents to the area's labor force. On June 30, 2013, 93.9% of the Town's available labor force was employed. This compares favorably to the area rate of 91.2% and the State rate of 92.0%. The Town's per capita income was \$40,506 and its median household income was \$72,688, as reported by in the State of Connecticut Fiscal Indicators report.

The Town's position as a residential community is illustrated by the fact that approximately 82.4% of the October 2012 grand list was residential. The percentage of the 2012 grand list was 82.3%. Permits for eleven new residential units were issued this year compared to just four in 2012. In the last ten years, the average number of new units per year is 11. As a percentage of the grand list, industrial and commercial property values increased slightly from 13.0% to 13.6%.

The Town provides a full range of municipal services including public safety (police, fire, animal control and emergency management), public works (roads, building and grounds, solid waste management, engineering), health, sanitation, zoning compliance, senior citizen services, youth services, and social services; recreation; library.

GOVERNANCE

The Town of Westbrook derives its power and privileges from the provisions of Connecticut General Statutes. The Town Meeting form of government includes a three member Board of Selectmen and a six member Board of Finance. The Town Meeting acts as the legislative body for all matters. The Board of Selectmen prepares the annual budget which is then presented to the Board of Finance to establish the tax rate, ascertain the need for appropriations and transfers of monies to and from Town accounts and publishes the annual report.

ECONOMIC CONDITIONS

- The unemployment rate for the Town as of July 2013 was 6.1%, which is a slight decrease from a rate of 7.2% a year ago. This compares very favorably to the state's average unemployment rate of 8.0% and the national average rate of 7.6%.
- Inflationary trends in the region compare favorably to national indices.
- Moody's Investors Service, on July 22, 2013 reaffirmed the Town's Aa2 credit rating with this observation: "Moody's believes that Westbrook's moderately sized \$1.7 billion equalized net grand list (ENGL) will stabilize given a recent increase in economic activity within its commercial sector. Located approximately 35 miles east of New Haven (G.O. rated A2/negative outlook) and 21 miles west of New London, the town's grand list has decreased by a 3.2% annual average rate from 2010 through 2013 (inclusive of the

2011 revaluation)reflecting the softening of the residential housing market. The equalized grand list declined by 2% from 2009 through 2013 however management anticipates growth in the October 2013 valuation given a significant increase in reported economic development activity including the expansion of the Middlesex Hospital (revenue bonds rated A2/stable outlook). Additionally, the Lee Company, the town's largest taxpayer, which accounts for 4.9% of the town's grand list, recently completed a large expansion project.

MAJOR INITIATIVES

For the Year:

Major initiatives tend to be measured by large expenditures and/or project size and are usually thought of in terms of capital projects. However, presented below are the highlights of the Town's special programmatic and service initiatives followed by the explanation of capital initiatives.

Programs and Services:

Finance Department: The Department of Finance began formal operations on January 5, 2011 with the employment of the Town's first Director of Finance. Other than the Director, the Department is staffed with one full time and one part time employee. Some accomplishments during FY2013 include:

- Preparation of three bond ordinances for a total of \$7,090,000 general obligation bonds;
- Preparation and management of the FY2013-14 annual budget process;
- Preparation of the 5 Year Capital Improvement Plan for FY2014-18;
- Cash management practices that doubled the return on the investment of town funds compared to FY2012.
- Implementation of Purchase Letters used to authorize large capital procurements.

Facilities Management Department: This past year saw large improvements in energy usage in the town buildings as a result of the installation of perimeter LED lighting. This change was initiated due to Connecticut Light & Power rebate programs. The payback is three to four years.

Planning Commission

- Worked in collaboration with CLEAR, CT Sea Grant and CT DEEP as pilot community for "Climate Change Workshop for Connecticut's Coastal Communities";
- Assisted Zoning Commission with FEMA updates to Zoning Regulations including major map revision. Provided analysis of recommended updates from CT DEEP;
- Established Incentive Housing Zone - Applied for and received Preliminary Determination of Eligibility for Zone Adoption Payment;
- Updated Design Standards for Multi-family Housing.

Town Center Revitalization Committee

- Completed environmental remediation of 2 Westbrook Place and 1224 Boston Post Rd.
- Applied for 2013 STEAP Grant for Phase II of Town Center Parking Project - *pending*

- Continued Work with UCONN Community Research and Design Collaborative to develop Town Center and Flat Rock Place Master Plan
- Initiated Wastewater Disposal Study in conjunction with Town Center Master Plan Study
- Continued to oversee Adopt-A-Spot funded for a third year by a \$1,800 grant from the Westbrook Foundation

Economic Development Committee

- Became member of CT Main Street Program
- Applied through Middlesex County Revitalization Committee for Brownfields Assessment Grant for Turnpike Autowreckers Property (88 Pond Meadow Rd.)

Zoning Commission: During Fiscal Year 2012-2013, the Zoning Commission made changes to the Fee Schedule to address the need for outside consulting flood reviews on residential projects located in a flood hazard area. The supplemental flood reviews assures that that the town maintains their standing in the National Flood Insurance Program. The task of updating fees and obtaining a flood consultant was in conjunction with the updated FEMA Flood Maps that took effect in February 2013. Consequently, the Flood Plain Management Regulations were amended to focus on the revised flood mapping and FEMA requirements.

Inland Wetlands and Watercourses Commission (IWWC): From July 1, 2012 to June 30, 2013, the Inland Wetlands & Watercourses Commission (IWWC) received 10 new applications. Two commercial applications were pending from the previous year, (one of which was approved, and the other was withdrawn.) The IWWC granted a total of 8 approvals during this time period at its regular meetings. There were 9 residential applications and 1 commercial application. Two applications were withdrawn. There were no denials.

Of note, the IWWC reviewed and approved the application for the Middlesex Hospital Shoreline Clinic including the clearing, grading, and construction of portions of the parking access, sanitary system, utilities, helipad and storm water management system for an emergency/ambulatory outpatient medical facility.

Recreation: With Hurricane Sandy came many changes in registrations and attendance in all the programs. The problem continued with all the many snow days and changes in the school calendar. We ended school with 7 additional days which made our summer that much shorter. On the bright side, we had several programs that did very well. Adult basketball, Volleyball, Zumba and our Bus Trips all did very well this past year. All our summer camps were well attended and we saw many new faces. Our summer sports camps also saw higher numbers in Basketball, Field hockey and Gymnastics camps.

Public Works:

- The department completed the repaving of Old Clinton Road, which was funded completely with the accumulation of \$300,000 in State Local CIP (LOCIP) funds.
- Completed the scheduled repaving of the Sagamore Terrace area of town.
- The Town Garage Committee is supervising the construction of the new Town garage on Horse Hill Road. The \$1,800,000 project is expected to be substantially complete by November 2013.

Notable Event: Hurricane Sandy

On October 27, 2012 Westbrook and other towns in Connecticut were struck by Hurricane Sandy. The Town suffered significant damage to its infrastructure and at one point 90% of the Town was without power. The Town's Daisy Elementary School was opened for several days as an evacuation center and shelter. On October 30, President Barack Obama signed a Connecticut Disaster Declaration, which means local governments as well as individuals and non-profits can apply for federal assistance from FEMA. The town, as well as local governments in Fairfield, Litchfield, Middlesex, New Haven and New London counties also qualified for public assistance, which was for emergency work and repair or replacement of facilities damaged by the storm.

Town staff gathered damage assessments for town properties as well as documented employee costs, equipment rentals and owned equipment use, and other expenses incurred by various town departments in response to Hurricane Sandy. Based on the damage assessments, the Town incurred nearly \$300,000 in damage.

The Federal Emergency Management Agency reimbursed the town \$224,806, 75% of eligible expenditures. Due to the advanced preparation of the town agencies and staff, all reimbursement requests were accepted by FEMA without adjustment. The town's insurance agent, CIRMA, reimbursed the town \$45,240 for property damaged or lost that was covered by our property insurance. The net cost to town was \$28,780 which was paid from existing capital reserves.

Notable Event: Superstorm Nemo

On February 8, 2013 Westbrook and other towns in Connecticut were struck by a historic blizzard. Governor Malloy declared a state of emergency at 12:00 p.m. EST on February 8, and closed limited-access highways statewide. On February 9, the Governor ordered all roads in the state closed except to essential vehicles. On February 10, at Governor Malloy's request, President Obama granted an Emergency Declaration in all Connecticut Counties.

Prior to the storm we asked all departments to maintain detailed records of the use of personnel and equipment. The Finance Department instructed town departments to use a single expenditure account number in the Capital and Non-Recurring Expenditure (CNRE) Fund to ensure all storm-related payroll and non-payroll expenses were properly captured in one place.

Town staff gathered damage assessments for town properties as well as documented employee costs, equipment rentals and owned equipment use, and other expenses incurred by various town departments in response to this blizzard. The most extensive damage was to curbs as a result of snow plowing. There was no other building or infrastructure damage. Documented town costs exceeded \$59,000.

The Federal Emergency Management Agency reimbursed the town \$44,478, 75% of eligible expenditures. Due to the advanced preparation of the town agencies and staff, all reimbursement requests were accepted by FEMA without adjustment. The net cost to town was paid from existing capital reserves.

Budgeting Controls

In addition to internal accounting controls, the Town maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget for the General Fund approved at the annual Town Meeting and as may be amended by the Boards of Selectmen and Finance or a Special Town Meeting during the fiscal year. The General Fund level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is the division level within a department. The Town does not maintain annual budgets for any other funds. The Town also maintains project length budgets for all capital projects approved by special Town Meetings. The Town does not use an encumbrance system, but verification of funds availability is required prior to the payment of invoices.

As demonstrated by the statements and schedules included in the financial section of this report, the Town continues to meet its responsibility for sound financial management.

Fiscal Year 2013 Financial Results

An extensive discussion of the Town's financial results of operation is contained in the Management's Discussion and Analysis. That information is not duplicated here.

Awards and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Excellence in Financial Reporting to the Town for its Comprehensive Annual Financial Report for the first time for the Town's Fiscal Year 2012 report. In order to be awarded a Certificate of Achievement, the Town publishes an easily readable and efficiently organized comprehensive annual financial report. This report satisfies both generally accepted accounting principles and applicable legal requirements.

A Certificate for Excellence in Financial Reporting is valid for a period of one year only. I believe our current report continues to conform to Certificate of Achievement for Excellence in Financial Reporting Program requirements, and I am submitting it to GFOA to determine its eligibility for another certificate.

The preparation of this annual financial report on a timely basis was made possible by the efficient and dedicated services of Carol Hess and Kim Zdon in the Finance Department, to whom I extend my sincere appreciation. I should also thank you, the Board of Selectmen and the Board of Finance for the interest and support in planning and conducting the financial operations of the Town in a responsible and progressive manner.

Respectfully Submitted,

Andrew Urban
Director of Finance

INDEPENDENT AUDITORS' REPORT

To the Honorable Members
of the Board of Finance
Town of Westbrook, Connecticut

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Westbrook, Connecticut (the Town) as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the

entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Westbrook, Connecticut, as of June 30, 2013, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended, in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require that the management's discussion and analysis on pages 4 to 15 and the Schedules of Funding Progress and Employer Contributions – Westbrook Retirement Systems and Westbrook Other Postemployment Benefits Plan on pages 60 to 61 and 62, respectively be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The introductory section, General Fund schedules, combining and individual nonmajor fund financial statements and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements.

The General Fund schedules and combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2013 on our consideration of the Town of Westbrook, Connecticut's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Westbrook, Connecticut's internal control over financial reporting and compliance.

Seward and Monde

North Haven, Connecticut
December 9, 2013

**Town of Westbrook, Connecticut
Management's Discussion and Analysis
June 30, 2013**

As management of the Town of Westbrook, Connecticut, we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2013.

FINANCIAL HIGHLIGHTS

- On a government-wide basis, the assets of the Town exceeded its liabilities at the close of the most recent fiscal year by \$43,133,557 (net position). Of this amount, \$6,725,269 (unrestricted net position) may be used to meet the Town's ongoing obligations to citizens and creditors.
- On a government-wide basis, the Town's total net position increased by \$2,486,021. The majority of the increase is attributable to debt service principal payments, which are budgeted as expenditures in the fund financial statements.
- As of the close of the current fiscal year, the Town's governmental funds reported a combined ending fund balance of \$5,788,507, a decrease of \$309,071 compared to the prior year.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$3,714,727, or 13.5% of total General Fund revenue for FY2013. This is at the upper end of the 12-15% fund balance margin policy established by the Board of Finance.
- The Town's total long-term obligations decreased by \$2,360,000 (10.8%) during the current fiscal year. In addition, the Town paid off the remaining \$195,000 in the 5 year notes that were issued to finance the replacement of the Daisy Ingraham Elementary School roof.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Town of Westbrook's basic financial statements. The basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information as well as the basic financial statements.

Government-Wide Financial Statements. *The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business. All of the resources the Town has at its disposal are shown, including major assets such as buildings and infrastructure. They provide both long-term and short-term information about the Town's overall financial status.*

The *statement of net position* presents information on all of the Town's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or

decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *statement of activities* presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). The government-wide financial statements present only governmental activities whose functions are principally supported by taxes and intergovernmental revenues, since the Town does not operate any business-type activities. The government activities of the Town include general government, public safety, public works, development and community affairs, health and welfare, culture and recreation and education.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Town's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented by governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Town's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains 22 individual governmental funds. During FY2013, one fund, the Recreation Concert Series Fund was closed due to inactivity and lack of purpose. The residual fund balance of \$1,357 was transferred to the Family Fun Day Fund. Three new funds, the Fire Equipment Bond Fund, the Infrastructure Bond Fund and the Board of Education Bond Fund were added during the fiscal year to account for the proceeds of bond issues. These three funds are grouped in the Bonded Projects Fund since collectively they are considered a fund group. Information is presented separately in the balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Capital Nonrecurring Fund, both of which are considered to be major funds. Data from the other 20 governmental funds are combined into a single, aggregated presentation titled "Other Governmental Funds". Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The Town adopts an annual budget for its General Fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget. The Town also adopted a budget for the Library Expendable Trust Fund.

Proprietary Fund. The Town maintains one internal service fund, the Health Insurance Fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the Town's various functions. The Town uses an internal service fund to account for its self-insured medical benefits. Because these services predominantly benefit governmental functions, they have been included within governmental activities in the government-wide financial statements.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary type funds.

Notes to the Basic Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Town's progress in funding its obligation to provide pension benefits and OPEB to its employees.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information on pensions and OPEB.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a Town's financial position. In the case of the Town, assets exceeded liabilities by \$43,133,557 at the close of the most recent fiscal year.

The Town's positive net position reflects its net investment in capital assets (e.g., land, construction in progress, buildings and improvements, machinery, equipment and infrastructure); less any related debt used to acquire those assets that are still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's net investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Table 1, which can be found at the end of the Management Discussion and Analysis, presents a comparative summary statement of net position.

Governmental Activities. Governmental activities increased the Town's net position by \$2,486,021. The majority of the increase is attributable to debt service principal payments, which are budgeted as expenditures in the fund financial statements. This is due to the use of accrual accounting at the government-wide financial statement level where long term liabilities are amortized over a long period of time. Additional increases were due to principal payments made for debt service as these items are shown as expenditures in the fund financials.

Table 2, which can be found at the end of the Management Discussion and Analysis, presents a comparative change in net position.

Major revenue factors included:

- Property taxes increased \$852,576 due to a 4.02 mill increase to cover an increase in the Board of Education budget.
- Operating grants and contributions decreased by \$110,082 almost entirely due to a decrease in aid to education.
- Capital grants and contributions decreased by \$59,498 due to lower state grant reimbursements for capital projects.

Major expense factors included:

- Overall expenses decreased \$51,072, .2% lower than in FY2012. Public works expenses increased by \$368,727 due to costs related to Hurricane Sandy and Winter Storm Nemo and park maintenance expenses which in the prior year was included in culture and recreation expenses, education expenses increased by \$861,694 due to salaries and benefits for both certified and non-certified staff, non-departmental expenses decreased by \$916,393 due to decreased claims costs and increased contributions in the medical self insurance fund and interest expense decreased by \$162,544 due to refinancing of some general obligation bonds in the prior year.

FINANCIAL ANALYSIS OF THE TOWN'S FUNDS

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a Town's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the Town's governmental funds reported a combined ending fund balance of \$5,788,507, a decrease of \$309,071 in comparison with the prior year. The decrease is immaterial.

The General Fund is the operating fund of the Town. At the end of the current fiscal year, nonspendable and unassigned balances for the General Fund was \$3,733,659. As a measure of the General Fund's liquidity, it may be useful to compare the unassigned fund balance, \$3,714,727 to total fund revenues. Unassigned fund balance represents 13.5% of total General Fund revenues.

The fund balance of the Town's General Fund decreased by \$227,583 compared to an increase \$787,861 for FY2012. The cause of the decrease was due primarily to the shortfall in intergovernmental revenue.

GENERAL FUND BUDGETARY HIGHLIGHTS.

The differences between the original budget and the final amended budget was \$5,841, including a \$2,500 grant from State Department of Public Health for a lead prevention program, a \$941 grant from the State Department of Emergency Services for communications equipment and a grant of \$2,400 from the Westbrook Foundation for the annual holiday lighting ceremony. There were no appropriations of fund balance during the fiscal year. This was primarily due to a contingency budget of \$77,000 in the FY2013 adopted budget. Of this contingency budget \$62,106 was transferred to various departments during the fiscal year.

During the year, revenues were lower than budgetary estimates by \$528,070, or 2.0%, mainly in property tax collections and intergovernmental revenues. This variance is minimal and well within the acceptable variance range of 5%. Expenditures were \$301,522 or 1.2% less than budgetary estimates. The net decrease in fund balance was \$227,583. Over the past five fiscal years from FY2009 through FY2013, actual expenditures have been lower than the adopted budget averaging 2%. This pattern demonstrates the good management of their budgets by town department managers.

For fiscal year 2013 on a summary basis, Town agencies delivered budgetary savings of nearly 5.6% while the Board of Education provided insignificant budgetary savings of .05%. The unexpended balance of \$7,181 of the Board of Education's appropriation was transferred at year end to a capital reserve account for the Board of Education in the Capital Nonrecurring (CNR) Fund.

- Current property tax revenues were lower than estimated by \$245,136 than the estimated but still 98.9% of the current levy. Prior year collections were \$56,076 greater than estimates. In addition, the Town collected \$33,819 more than expected interest and lien fees collections, and \$30,889 more than estimates from the supplemental motor vehicle tax. Total property tax collections were 99.5%, slightly lower than the 99.7% from last fiscal year.
- Intergovernmental revenues were \$377,206 lower due to a boat tax estimated at \$378,700 included in the governor's proposed budget for municipal aid that was not funded by the legislature.
- Charges for services were lower than estimates by \$13,659 primarily in lower than expected nursing fees, recreation fees, and private duty revenues, offset by higher than expected town clerk fees, land use fees, and building permits.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. The Town's investment in capital assets for its governmental activities as of June 30, 2013, amounts to \$ 55,809,214 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings and improvements, machinery and equipment, and infrastructure.

Major capital asset events during the current fiscal year included the following:

- Replacement of the boilers at Daisy Ingraham Elementary School at a cost of \$45,557 to buildings and improvement assets.
- Continued investment in the Town's new public works facility added \$262,674. The amended project budget of \$1,802,000 is 22.4% complete.
- The Town added \$37,138 in machinery, equipment and vehicles to the town inventory of assets, including \$8,999 for a new Kawasaki lawn mower, \$10,989 for a new sand spreader, and \$17,150 to replace the outboard engine for the Police patrol boat.

Additional information on the Town's capital assets can be found in Note 6.

Table 3, which can be found at the end of the Management Discussion and Analysis, presents a comparative schedule of capital assets.

Capital Financing

The Town finances capital projects for both the Town and Board of Education through the Capital Nonrecurring Fund. Sources of income to the fund include annual contributions from the General Fund, state grants and debt financing. Projects are usually multi-year in nature and can include capital improvements, capital equipment, and certain non-recurring programs such as property revaluation that occurs every five years. The Town is progressing to a "pay as you go" approach to capital projects. Because of its fund classification, appropriations in the CNRE Fund do not lapse; therefore financial reporting focuses on financial results based on revenues and expenditures over the life of a project rather than a single fiscal year.

In fiscal year 2013, the Town General Fund contributed \$369,000 in planned contributions for various purposes. Additional income in the CNRE came from a variety of state grants and state FEMA reimbursements of \$247,181 for Hurricane Sandy and Storm Nemo; \$45,240 from insurance recoveries, also related to the two storms. Other state grants contributed \$333,239. There were also several non-governmental grants totaling \$12,300 for projects. Total revenues and other financing sources were \$1,016,550.

New appropriations for 18 projects and programs in the CNRE Fund during FY2013 totaled \$349,026. Expenditures by project year were: FY2011, \$264,525; FY2012, \$413,252; and FY2013, \$349,026. Total expenditures for all projects and programs totaled \$1,075,415. Nineteen projects were closed, returning \$24,898 to fund balance.

Expenditures exceeded revenues and other financing sources by \$59,865. At the end of the fiscal year, the CNRE Fund had \$791,303 in its committed fund balance.

Long-term Debt. At the end of the current fiscal year, the Town had \$19,435,000 of long-term bonded debt outstanding (excluding bond premiums). All outstanding debt of the Town is general obligation debt and is backed by the full faith and credit of the Town.

On July 11, 2012, \$195,000 of general obligation bond anticipation notes came due, and were paid down with funds included in the annual General Fund Fiscal Year 2012-13 budget operating budget.

On May 9, 2013 a Town Meeting approved three bond ordinances totaling \$7,090,000 for the following purposes:

- Fire Equipment: \$3,625,000 for the replacement of a 35 year old ladder truck during fiscal year 2013-14, and replacement of three pumper engines in 2016, 2018 and 2020.
- Infrastructure Improvements: \$1,540,000 for the repair or replacement of three bridges, and various road improvement projects.
- Board of Education Projects: \$1,925,000 for various school building improvements.

20 year bonds of \$5 million were sold on August 1, 2013:

- Fire Equipment \$1,725,000
- Infrastructure 1,350,000
- Board of Education 1,925,000

State statutes limit the amount of general obligation debt a governmental entity may issue to seven times total tax collections including interest and lien fees and the tax relief for elderly freeze grant. The current debt limitation for the Town is \$165,110,253, which is significantly in excess of the Town's outstanding general obligation debt.

Additional information on the Town's long-term debt can be found in Note 7.

CASH MANAGEMENT AND INVESTMENTS

Cash temporarily idle during the year was invested in demand deposits, time deposits, money market accounts, and an authorized statewide investment pool, the State Treasurer's Investment Fund (STIF).

Significant changes were made in the cash management and investment of town funds during the fiscal year. The concentration of cash in one town bank account allowed more efficient cash management and easier investment of funds. For example, the town's primary bank is Citizens Bank, which offers just .01% interest on the balance of Town funds. The State Treasurer's Investment Fund (STIF), however, offers from .08% interest. 95.4% of the Town's funds are invested.

On June 30, 2013, the General Fund had cash and cash equivalents of \$4,750,797. There was \$2,047,580 in the capital nonrecurring fund, primarily for the new infrastructure and facility

improvement projects approved between the 2011 and 2013. The Health Insurance Fund had \$2,695,251 which is exclusively reserved for the payment of health claims. The total cash and cash equivalents for all funds, exclusive of Pension Funds, was \$10,826,733.

During the fiscal year, all cash accounts and cash equivalents were held by qualified public depositories as defined by State Statutes. Section 36-386 of the Connecticut General Statutes requires that each depository maintain segregated collateral in an amount equal to a defined percentage of its public deposits based upon the bank's risk based capital ratio. By itself, a bank's risk based capital ratio is an indication of the bank's strength.

The Pension Fund assets are held in trust supervised by the Town's Retirement Board and invested by various money managers selected by the Board

PROPRIETARY FUND OPERATIONS

The Town is self-insured for health and dental expenses of its employees in the Health Insurance Fund. Income to the fund comes from budgetary contributions from the Town and Board of Education budgets. Additional income comes from employee and retiree contributions toward the cost of health care. During FY2013, union employees contributed 12% to the cost of health care benefits, while non-union employees contributed 11%.

Benefits are paid via a third party administrator, Anthem Blue Cross & Blue Shield. Each year during the budget process USI Consulting, the Town's benefit consultant, calculates the expected claims expense and administrative fees for budgetary purposes. At the end of the fiscal year, a reconciliation is performed with Anthem data on the year's income and expense. Any surplus or deficit is adjusted to the Health Insurance Fund's reserves. A portion of these reserves are considered to be usable and can be used to offset the subsequent year's proposed health costs. A formula allows the Town and Board to use 50% of the useable reserves to offset expenses in the next fiscal year. Both the Town and the Board of Education applied 25% of their usable reserves at June 30, 2012 to offset the FY2013 health insurance budget.

The Health Insurance Fund ended the fiscal year with an operating surplus of \$707,844 due to lower than anticipated claims costs. However, \$341,430 of the Fund's reserves which were intended to be used during the fiscal year were not used due to the Fund's positive experience. At the end of fiscal year 2013, the reserves stood at \$2,528,617, of which \$468,868 will be used as an offset to the FY2014 health insurance costs.

PENSIONS AND OTHER POST EMPLOYMENT BENEFITS

The Town administers three single-employer, defined benefit pension plans (Town of Westbrook Retirement Plan, Town of Westbrook Volunteer Firefighters' Pension Fund and Town of Westbrook Constables' Pension Plan) covering substantially all Town employees with the exception of certified teachers and administrative personnel at the Board of Education. The plans were established through ordinances adopted July 1, 1971, August 10, 1993 and April 24, 2007, respectively. The Retirement Board makes recommendations for plan provisions which are approved by the Board of Finance and/or Board of Selectmen. The plans are considered to be a part of the Town's financial reporting entity and are included in the Town's financial statements as pension trust funds. The plans do not issue separate, stand alone, financial

reports. The certified faculty and administrative personnel of the Board of Education participate in a contributory retirement plan administered by the State Teachers Retirement Board. The Town does not contribute to this plan. The State of Connecticut contributed \$1,552,092 to the plan on behalf of the Town's members.

During fiscal year 2013, the Town contributed the actuarially required contribution (ARC) to the three Town's pension plans. Net assets of the combined plans increased from \$6,226,477 to \$7,299,884. Additions to the plan included \$453,990 in employer contributions, \$123,441 in plan member contributions, \$335,025 in interest and dividends, and a gain of \$551,402 in the net fair value of investments. Deductions included \$352,854 in benefits and \$37,597 for administration. Benefit payments totaled 90.4% of the disbursements from the Pension Funds.

Actuarial valuations were conducted on all three plans as of June 30, 2013. The results of those valuations will be utilized to determine the ARC for the next three fiscal years. In summary, the Town's ARC beginning in fiscal year 2014 will increase from \$453,990 to \$549,149, a \$95,159 or 21% increase. This increase in the ARC is due to a large increase in the unfunded liability from 2011 to 2013 due to several factors. While the actuarial value of assets grew 17% over the past two years, liabilities also increased by nearly the same percentage.

ECONOMIC FACTORS

- The unemployment rate for the Town as of June 2013 was 6.1%, which is a significant improvement from a rate of 7.2% a year ago. This compares very favorably to the state's average unemployment rate of 8.0% and the national average rate of 7.6%.
- Inflationary trends in the region compare favorably to national indices.

All of these factors were considered in preparing the Town's budget for the 2013-14 year. The Town did not appropriate any of its fund balance for spending in that budget.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Office, Town of Westbrook, 866 Boston Post Road, Westbrook, CT 06498.

**TOWN OF WESTBROOK, CONNECTICUT
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE GOVERNMENT-WIDE STATEMENT OF NET POSITION
JUNE 30, 2013**

Amounts reported for governmental activities in the statement of net assets are different from the governmental fund balance sheet. The details of this difference are as follows:

Total fund balance	\$ 5,788,507
--------------------	--------------

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds:

Beginning net capital assets	56,081,484
Current year additions	669,136
Depreciation expense	(938,906)
Loss on disposal of capital assets	(2,500)
	<u>55,809,214</u>

Other long-term assets are not available to pay for current period expenditures and, therefore, are deferred in the funds:

Property tax interest and lien accrual, net	139,062
Property tax receivable - accrual basis change	456,671
Deferred loss on refunding	1,251,354

Internal service funds are used by management to charge the cost of medical insurance premiums to individual departments:

The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position	2,528,617
---	-----------

Some liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds:

Bonds payable	(19,435,000)
Bond premiums	(1,030,270)
Other post employment benefits	(809,261)
Compensated absences	(157,489)
Net pension obligation	(43,312)
Landfill closure costs	(1,124,845)
Accrued interest payable	(239,691)
	<u> </u>

Net position of governmental activities	<u>\$ 43,133,557</u>
---	----------------------

The notes to the financial statements are an integral part of this statement.

**TOWN OF WESTBROOK, CONNECTICUT
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCES
TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2013**

Amounts reported for governmental activities in the statement of activities are due to:

Net change in fund balances - total governmental funds (\$ 309,071)

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period:

Capital outlay		669,136
Depreciation expense		(938,906)
Loss on disposal of capital assets		(2,500)
Total		<u>(272,270)</u>

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds and revenues recognized in the fund financial statements are not recognized in the statement of activities:

School building grant receipts		(103,517)
Increase in property tax receivable - accrual basis change		<u>45,724</u>
Total		<u>(57,793)</u>

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The details of these differences in the treatment of long-term debt and related items are as follows:

Principal repayments:		
Bond anticipation notes		195,000
General obligation bonds		<u>2,360,000</u>
Total		<u>2,555,000</u>

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:

Accrued interest payment		17,104
Amortization of bond premium		93,019
Amortization of deferred charges		(210,102)
Compensated absences		(35,948)
Net pension obligation		1,993
Other post employment benefits (OPEB)		(30,477)
Landfill closure		<u>26,722</u>
Total		<u>(137,689)</u>

Internal service funds are used by management to charge costs of medical insurance premiums to individual departments		<u>707,844</u>
---	--	----------------

Change in net position of governmental activities		<u>\$ 2,486,021</u>
---	--	---------------------

The notes to the financial statements are an integral part of this statement.

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013

Note 1 - Summary of Significant Accounting Policies

The Town of Westbrook, Connecticut (the Town) was incorporated in 1840. The Town covers 16.2 square miles located in Middlesex County. The Town operates under a Town Meeting/Board of Selectmen form of government under the provisions of the general statutes of the State of Connecticut, and provides a full range of services including public safety, roads, sanitation, planning and zoning, health and social services, public library, parks and recreation, education and general administrative services to its residents.

The Town operates under the provisions of its charter and the General Statutes of the State of Connecticut. The legislative powers of the Town are vested in the Town meeting. The executive body is made up of a Board of Selectmen, consisting of a First Selectman, who is the chief executive officer, and two other board members. A six-member Board of Finance is responsible for presenting fiscal operating budgets to the Annual Town Meeting.

The financial statements of the Town of have been prepared in conformity with U.S. generally accepted accounting principles as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standards setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant accounting policies used by the Town:

A. Financial Reporting Entity

The financial reporting entity consist of 1) the primary government, 2) organizations for which the primary government is financially accountable and 3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete as set forth by GASB.

In evaluating how to define the financial reporting entity, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in this reporting entity was made by applying the criteria set forth by GASB, including legal standing, fiscal dependency and financial accountability. The criterion has been considered and there are no agencies or entities which should be presented with this government.

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

B. Basis of Presentation

Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Town. As a general rule, the effect of interfund balances and activity has been eliminated in preparation of these statements. Exceptions to this rule are services provided by one fund used by another fund. Elimination of these charges would distort the direct cost and program revenues reported for the various functions concerned. Governmental activities, which are normally supported by property taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of net position presents the financial position of the Town at the end of its fiscal year. The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Property taxes and other items not properly included among program revenues are reported instead as general revenues. The Town does not allocate indirect expenses to functions in the statement of activities.

Fund Financial Statement

The fund financial statements include a balance sheet and a statement of revenues, expenditures and changes in fund balances for all major governmental funds and non-major funds aggregated. An accompanying schedule is presented to reconcile and explain the differences in net assets as presented in these statements to the net position presented in the government-wide financial statements. The fund financial statements provide information about the government's funds, including its fiduciary funds. Separate statements for each fund category - governmental, proprietary and fiduciary - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The Town reports the following major governmental funds:

The General Fund is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

The Capital Nonrecurring Fund is a capital projects fund which is used to account for major capital asset construction and/or purchases funded substantially by grants and general fund appropriations.

Additionally, the Town reports the following fund types:

The Special Revenue Funds are used to account for proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes.

The Permanent Funds are used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the Town's programs. Permanent fund restricted net position are segregated between nonexpendable and expendable. The nonexpendable portion represents the original restricted principal contribution, and the expendable represents accumulated earnings which are available to be spent based on donor restrictions.

The Internal Service Fund accounts for risk financing activities for medical insurance benefits.

The Pension Trust Funds account for the activities of the Town Employees' Retirement System, the Firefighters' Retirement System and the Constables' Retirement System, which accumulate resources for pension benefit payments to qualified employees.

The Agency Funds account for monies held on behalf of students and performance bonds.

During the course of operations the Town may have activity between funds for various purposes. Any residual balances outstanding at year end are reported as due to/from other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported as gross amounts as transfers in/out. Certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

C. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Measurable means knowing or being able to reasonably estimate the amount. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Property taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenue when all eligibility requirements are met, including any time requirements and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the Town.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

Like the government-wide statements, all proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. All assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the Town finances and meets the cash flow needs of its proprietary activities.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's internal service fund are charges for services. Operating expenses for the internal service fund include the cost of medical claims and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. Proprietary fund reporting focuses on changes in net position, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service.

Fiduciary fund financial statements include a statement of net position and a statement of changes in net position. The Town's Fiduciary funds represent Pension Trust Funds and Agency Funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

Cash equivalents

The Town considers cash equivalents as cash on hand, demand deposits, money market accounts and short-term investments with original maturities of three months or less from the date of acquisition.

Investments

Investments for the Town are reported at fair value, generally based on quoted market prices.

Property Taxes and Other Receivables

The Town's property tax is levied and payable each July 1 on the assessed value listed as of the prior October 1 for all real and personal property located in the Town. These taxes are billed and due in two installments, July 1 and the subsequent January 1. Liens are effective on the assessment date and are continued by filing prior to the following levy date. Assessed values are established at 70 percent of estimated market value to conform to State statutes.

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

In the government-wide financial statements, all trade and property tax receivables are shown net of an allowance for uncollectibles. Allowance percentages range from 15% to 29% of outstanding receivable balances at June 30, 2013, and are calculated based upon prior collections.

In the fund financial statements, all property taxes receivable at June 30, 2013, which have not been collected within 60 days of June 30, 2013, have been recorded as deferred inflows of resources, since they are not considered to be available to finance expenditures of the current fiscal year. Taxes collected during the 60 day period have been recorded as revenue.

State statutes require that a revaluation be done every four years. The last revaluation completed and enacted was for the list of October 1, 2011.

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans).

Inventory and Prepaid Items

Inventory consists of fuel and is recorded at cost. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid expenses in both government-wide and fund financial statements.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 for equipment, \$20,000 for improvements and \$100,000 for infrastructure, and an estimated useful life in excess of two years.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. Interest incurred during the construction of capital assets is also capitalized for business-type activities.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

All reported capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets.

JUNE 30, 2013
. . . Continued . . .

Useful lives for infrastructure were estimated based on the Town's historical records of necessary improvements and replacement.

Depreciation is computed using the straight-line method over the following useful lives:

Assets	Years
Buildings and improvements	10 - 80
Machinery, equipment and vehicles	5 - 25
Infrastructure	50 - 90

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense/expenditure) until then. The Town only has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statements of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has only one type of item that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported in the government-wide statement of net position and the governmental funds balance sheet. The governmental activities and governmental funds report unavailable revenues from property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available.

Compensated Absences

Compensated absences of the Town consist of vacation leave and sick leave to the extent that payment to the employee for these absences are attributable to services already rendered and are not contingent on a specific event that is outside the control of the Town and the employee.

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the Town will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability is based on the sick leave accumulated at June 30, 2013 by those employees who are currently eligible to receive termination payments and by those employees for whom it is probable they will become eligible to receive termination benefits in the future.

The total liability for vacation and sick leave payments has been calculated using pay rates in effect at the balance sheet date, and reduced to the maximum payment allowed by labor contract and/or statute, plus applicable additional salary related payments. Town employees are granted vacation and sick leave in varying amounts. In the event of termination, an employee is reimbursed for accumulated vacation at various rates.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position/Fund Balance

Government-wide Statements

Equity in the government-wide financial statements is defined as "net position" and is classified in the following categories:

- a. Net Investment in Capital Assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted - Consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets.

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

- c. Unrestricted - Net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment if capital assets or the restricted components of net position.

Net Position Flow Assumption - Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

Fund Financial Statements

The equity of the fund financial statements is defined as "fund balance" and is classified in the following categories:

- a. Nonspendable Fund Balance - represents amounts that cannot be spent because they are either (a) not in spendable form (e.g., inventories and prepaid amounts) or (b) legally or contractually required to be maintained intact.
- b. Restricted Fund Balance - represents amounts that are constrained for a specific purpose by either (a) external parties, such as grantors, creditors, contributors, or laws and regulation of their governments or (b) imposed by law through constitutional provisions or enabling legislation.
- c. Committed Fund Balance - represents amounts constrained for a specific purpose by a government using its highest level of decision-making authority. The Westbrook Town Meeting is the highest level of decision-making authority.
- d. Assigned Fund Balance - for all governmental funds other than the General Fund, any remaining positive amounts not classified as nonspendable, restricted or committed. For the General Fund, includes amounts constrained for the intent to be used for a specific purpose by the Board of Finance.
- e. Unassigned Fund Balance - represents fund balance in the General Fund in excess of nonspendable, restricted, committed and assigned fund balance. If another governmental fund has a fund balance deficit, it is reported as a negative amount in unassigned fund balance.

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

Fund Balance Flow Assumptions - Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned and unassigned fund balance). In order to calculate the amounts to report as restricted, committed assigned and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

The Board of Finance adopted a financial policy to maintain the General Fund fund balance in the range of an amount between 12 and 15 percent of the annual General Fund revenue budget. If the fund balance drops below the minimum 12 percent in the current fiscal year, an appropriation will be made in the subsequent year's budget to bring it back to 12 percent.

Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues, expenses and expenditures. Actual results could differ from those estimates.

Subsequent Events

Management has evaluated events through December 9, 2013, the date the financial statements were available to be issued.

Prior Period Adjustment

The governmental activities beginning net position has been restated by \$148,145 for the change in accounting method for debt issuance costs which should be recognized as an expense in the period incurred.

Note 2 - Stewardship, Compliance and Accountability

Budgets and Budgetary Accounting

At the annual Town meeting, the Board of Finance presents an operating and capital budget for the proposed expenditures of the fiscal year commencing the following July 1. The budget, as enacted by Town meeting, establishes the legal level of control and specifies that certain appropriations are to be funded by particular revenues. The original budget is amended during the fiscal year at special Town meetings as required by changing conditions. In cases of

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

extraordinary or unforeseen expenses, the Board of Finance is empowered to transfer funds from other budget line items up to \$20,000 to a departmental appropriation.

The Board of Education may transfer unexpended balances between accounts within its total line appropriation.

Generally, all appropriations lapse at year end, except those for the Bonded Capital Projects and the Capital Nonrecurring Funds. Appropriations for capital projects are continued until completion of applicable projects, even when projects extend more than one fiscal year.

The Town does not have legally adopted annual budgets for its special revenue funds because budgetary control is alternatively achieved by constraints imposed by the project authorization and grant awards related to these funds. The Town does not have legally adopted budgets for its internal service or fiduciary funds.

Application of Accounting Standards

For the year ended June 30, 2013, the Town implemented:

- GASB Statement 63 - *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* - This statement discusses transactions that result in the consumption or acquisition of net assets in one period that are applicable to future periods and provides guidance for reporting them.
- GASB Statement 65 - *Items Previously Reported as Assets and Liabilities* - This statement further clarifies that appropriate use of the financial statement elements of deferred outflows and deferred inflows of resources to ensure consistency in financial reporting.

Budget - GAAP Reconciliation

A reconciliation of revenues, expenditures, and fund balance between the accounting treatment required by GAAP, and budgetary requirements, is as follows:

	Revenues and Other Financing Sources	Expenditures and Other Financing Uses
Budgetary basis (page 22)	\$ 25,917,996	\$ 26,145,579
State Teachers' Retirement on-behalf payment	1,552,092	1,552,092
GAAP basis (page 20)	\$ 27,470,088	\$ 27,697,671

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

Note 3 - Cash, Cash Equivalents and Investments

Cash and Cash Equivalents

The deposit of public funds is controlled by Connecticut General Statutes. Cash equivalents are defined as those liquid investments having original maturities of three months or less. The carrying amount of the Town's cash deposits with financial institutions at June 30, 2013 was \$2,710,566.

The State Short-Term Investment Fund (STIF) is an investment pool managed by the Treasurer of the State of Connecticut. Investments must be made in instruments authorized by Connecticut General Statutes 3-27c - 3-27e. Investment guidelines are adopted by the State Treasurer. The fair value of the position in the pool is the same as the value of the pool shares. The balance of the pooled fixed income investments were invested in a 2a-7 like pool, which operates within State Statutes. The fair value of the position in the pool is the same as the value of the pool shares. The pool is rated AAAM by Standard & Poor's. The carrying amount of the Town's cash equivalents (STIF) at June 30, 2013 was \$8,653,167.

Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. All of the Town's deposits are in qualified public institutions as defined by state statute. Under this statute, any bank holding public deposits must at all times maintain segregated from its other assets, eligible collateral in an amount equal to a certain percentage of its public deposits. Additionally, the Town has an agreement with its primary financial institution whereby one hundred percent of the Town deposits which exceed the FDIC limits are collateralized with assets segregated from the financial institutions assets at the Federal Reserve Bank and identified as being pledged to the Town. The Town does not have a deposit policy for custodial risk.

Investments

In general, State of Connecticut Statutes allow the Town to invest in obligations of the United States of America or United States government sponsored corporations, in shares or other interests in any custodial arrangement, pool, or no-load, open-end management type investment company or investment trust (as defined), in obligations of any State or political subdivision rated within the top two rating categories of any nationally recognized rating service, or in obligations of the State of Connecticut or political subdivision rated within the top three rating categories of any nationally recognized rating service. For the capital nonrecurring fund, not more than 31% can be invested in equity securities.

The Pension Trust Funds are also authorized to invest in corporate stocks and bonds and mutual funds.

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

At June 30, 2013, the Town's investments consisted of the following types and maturities. Specific identification was used to determine maturities.

Type of Investment	Fair Value	Investment Maturities (In Years)			
		N/A	Less Than 1	1-5 Years	5-10 Years
Equity Mutual Funds	\$ 4,144,344	\$ 4,144,344	\$ -	\$ -	\$ -
Fixed Income Mutual Funds	2,499,718	-	534,236	1,658,806	306,676
Balanced Mutual Funds	412,115	-	-	-	412,115
Total	<u>\$ 7,056,177</u>	<u>\$ 4,144,344</u>	<u>\$ 534,236</u>	<u>\$ 1,658,806</u>	<u>\$ 718,791</u>

The Town's investments in the Pension Trust funds are covered by the Securities Investor Protection Corporation (SIPC) up to \$500,000, including \$100,000 of cash from sale or for purchase of investments, but not cash held solely for the purpose of earning interest.

Interest rate risk - The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit risk - The Town has no investment policy that would limit its investment choices due to credit risk other than State Statutes governing investments in obligations of any State or political subdivision or in obligations of the State of Connecticut or political subdivision.

The equity mutual funds, fixed income mutual funds and balanced mutual funds are not rated.

Custodial credit risk - The Town has no formal policy regarding custodial credit risk. Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. At June 30, 2013, the Town has no investments subject to custodial credit risk.

Concentrations of Credit Risk - The Town has no policy limiting the amount the Town may invest in any one issuer.

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

Note 4 - Receivables

Receivables as of year end for the Town's government-wide financial statements by type, including the applicable allowances for uncollectibles, are as follows:

	Property Taxes		
	Taxes	Interest & Lien Fees	Total
Current portion	\$ 234,841	\$ 75,608	\$ 310,449
Long-term portion	\$ 305,685	\$ 234,450	\$ 540,135
Less: Allowances for uncollectibles	(81,079)	(89,917)	(170,996)
Net long-term portion	\$ 224,606	\$ 144,533	\$ 369,139

Governmental funds report deferred inflows of resources in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned.

At the end of the current fiscal year, the various components of deferred inflows of resources and unearned revenue reported in the governmental funds were as follows:

Deferred Inflows of Resources:

Delinquent property taxes (general fund)	\$ 456,671
Prepaid property taxes (general fund)	136,277
	\$ 592,948

Unearned Revenue:

Unearned grant revenue (capital nonrecurring fund)	\$ 1,112,938
Unearned grant revenue (boe grants fund)	15,869
Deferred loans (small cities repayment fund)	75,080
	\$ 1,203,887

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

Note 5 - Interfund Transactions

Interfund Balances

Interfund balances consisted of the following at June 30, 2013, as reported in the fund financial statements:

	<u>Due From Other Funds</u>	<u>Due To Other Funds</u>
General Fund	\$ 9,286	\$ -
Capital Nonrecurring	10,396	-
Nonmajor Governments Funds:		
Library Restricted Gift Fund	3,553	-
Westbrook Library Fund	-	3,553
Land Use Professional Services	-	9,001
Bonded Projects	-	10,395
 Pension Trust Funds	 -	 <u>286</u>
 Grand Total	 <u>\$ 23,235</u>	 <u>\$ 23,235</u>

The primary purpose of the interfund balances is to cover costs in specific funds where revenues were not yet received. These interfund balances will be repaid once the anticipated revenues are received. All interfund balances are expected to be repaid within one year.

Internal balances between governmental funds are eliminated on the government-wide financial statements; therefore, only one interfund balance is reported on the government-wide financial statements.

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

Interfund Transfers

Interfund transfers for the year ended June 30, 2013, consisted of the following, as reported in the fund financial statements:

	<u>Transfer In</u>	<u>Transfer Out</u>	
General Fund	\$ 8,935	\$ 398,970	
Major - Capital Nonrecurring	376,181	-	
Nonmajor Governments Funds:			
Dog Fund	20,000	-	
Insurance Fund	2,789	-	
Westbrook Library Fund	2,000	3,553	
Recreation Concert Series	-	1,357	
Family Fun Day	1,357	-	
Land Use Professional Services	-	8,935	
Library Restricted Gift Fund	3,553	2,000	
Total Nonmajor Governmental Funds	<u>29,699</u>	<u>15,845</u>	
 Grand Total	 <u>\$ 414,815</u>	 <u>\$ 414,815</u>	

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

All other long-term liabilities are fully liquidated from the General Fund.

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

The following is a summary of annual debt service requirements and amounts to be provided by the State of Connecticut for the retirement of school bonds:

Fiscal Year	Bonds Payable	
	Principal	Interest
2014	\$ 1,790,000	\$ 636,600
2015	1,580,000	573,600
2016	1,580,000	527,275
2017	1,680,000	471,688
2018	1,670,000	407,938
2019-2023	7,655,000	1,165,246
2024-2027	3,480,000	192,583
	\$ 19,435,000	\$ 3,974,930

Debt Refunding

In prior years, the Town defeased general obligation bonds by placing the proceeds of new bonds in an irrevocable trust account to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included on the Town's financial statements. At June 30, 2013, \$7,040,000 of defeased bonds remains outstanding.

Landfill Closure and Postclosure Care Costs

State and Federal laws and regulations require the Town to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. An expense provision and related liability should be recognized based on the future closure and post-closure care costs that will be incurred near or after the date the landfill no longer accepts waste. The recognition of these landfill closure and post-closure care costs is based on the amount of the landfill used during the year. The Town landfill has been closed. The estimated total current cost of the landfill closure and post-closure care is based on the amount that would be paid if all equipment, facilities and services required to close, monitor and maintain the landfill were acquired currently.

As of June 30, 2013 the estimated monitoring costs for the next 22 years are \$1,124,845. This amount is based on estimates which are subject to change due to inflation, changes in technology or changes in applicable laws and regulations.

. . . Continued . . .

Note 9 - Pension Plans

Plan Descriptions

The Town administers three single-employer, defined benefit pension plans (Town of Westbrook Retirement Plan, Town of Westbrook Volunteer Firefighters' Pension Fund and Town of Westbrook Constables' Pension Plan) covering substantially all Town employees with the exception of certified teachers and administrative personnel at the Board of Education. The plans were established through ordinances adopted July 1, 1971, August 10, 1993 and April 24, 2007, respectively. The Pension Commission makes recommendations for plan provisions which are approved by the Board of Finance and/or Board of Selectmen. The plans are considered to be a part of the Town's financial reporting entity and are included in the Town's financial statements as pension trust funds. The plans do not issue separate, stand alone, financial reports. The certified faculty and administrative personnel of the Board of Education participate in a contributory retirement plan administered by the State Teachers Retirement Board. The Town does not contribute to this plan.

Summary of Significant Accounting Policies

The Plans' financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the Plans are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. All plan investments are reported at fair value.

Plan Membership

Membership in the Plan consisted of the following at July 1, 2013, the date of the most recent actuarial valuation:

	Town	Firefighters	Constables
Retirees and beneficiaries currently receiving benefits	38	14	1
Terminated vested participants	10	6	1
Active plan members	80	56	7
Total Plan Participants	128	76	9

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

Funding Policy

The Town is required to contribute the remaining amounts necessary to finance the benefits for its employees as are actuarially determined. Active plan members are not required to contribute to the plans.

Retirement Provisions

Town Plan

The Town Plan provides retirement benefits and death and disability benefits. Benefits vest after 5 years of service. Members may retire at age 65 with 5 years of service or at age 55 with 15 years of service. Members are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1.75% of final average compensation per year of credited service up to 30 years. Final average compensation is defined as the average annual compensation for the five highest consecutive years of the last ten years immediately preceding retirement.

Firefighters' Plan

The Firefighters' Plan provides retirement benefits and death and disability benefits. Benefits vest after 20 years of service. Members may retire at age 65 with 20 years of service. Members are entitled to a monthly retirement benefit for life, in an amount equal to \$25 per month times years of service. The maximum benefit is \$500 per month.

Constables' Plan

The Constables' Plan provides retirement benefits and death and disability benefits. Benefits vest after 20 years of service. A year of service is a year in which the participant performed 440 hours of service. Members may retire at age 65 with 20 years of service. Members are entitled to a monthly retirement benefit for life, in an amount equal to \$15 per month times years of service. Members are entitled to a retirement benefit for life of \$500 per month.

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

Note 10 - On-Behalf Payments

The faculty and professional personnel of the Board of Education participate in a multiple employer contributory cost-sharing defined benefit plan with a special funding situation, established under Chapter 167a of the Connecticut General Statutes, which is administered by the Connecticut State Teachers' Retirement Board. The financial statements of the plan are available from the State of Connecticut State Teachers' Retirement Board, 765 Asylum Avenue, Hartford, CT 06105.

Certain part-time and full-time certified teachers are eligible to participate in the plan and are required to contribute 7.25% of their annual earnings to the plan. The Town does not and is not legally responsible to contribute to the plan.

The State of Connecticut contributes based on actuarially determined amounts. The funding level was determined based on an actuarial valuation of the plan as a whole, which does not provide actuarial information on an individual entity basis. Total contributions made by the State of Connecticut were \$787,536,000, of which \$1,552,092 benefited Town employees, and has been included in intergovernmental revenues and education expenditures in the accompanying combined statement of revenues, expenditures and changes in fund balances. For the year ended June 30, 2013, Town teachers contributed \$536,608 to the plan and covered Board of Education payroll for the year was approximately \$7,401,500.

Note 11 - Other Postemployment Benefits (OPEB)

Plan Description

The Town and the Board of Education (the Board) provide post-employment medical benefits to eligible retirees and their spouses through a single-employer, contributory, defined benefit OPEB plan. A triennial actuarial valuation is made to determine whether the contributions are sufficient to meet the plan obligations. The latest actuarial valuation was made July 1, 2011. The OPEB plan does not issue a separate, stand-alone, financial report.

Benefit Provisions

Town employees are eligible for medical coverage upon retirement at age 55 with 20 years of service.

Board teachers and administrators are eligible for medical coverage upon retirement at age 55 with 20 years of service or at any age with 25 years of service. Board hourly employees are eligible for medical coverage upon retirement at age 55 with 15 years of service or age 65 with 5 years of service.

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

Plan Membership

Membership in the plan consisted of the following at of July 1, 2011, the date of the last actuarial valuation:

	Town	Board
Active members	37	140
Retirees and dependents	4	16
Total	41	156

Funding Policy

The contribution requirement of plan members, the Town and the Board are established and may be amended by the Town or the Board. The Town and the Board currently contribute enough money to the plan to satisfy the current obligations on a pay-as-you go basis.

Town retirees pay 100% of the premium; however, the Town pays \$200 per month towards the cost of the retirees' medical premium upon reaching 65. The Town also contributes \$100 per month towards the cost of a surviving spouse's medical premium upon reaching age 65. Board retirees pay 100% of the premium.

The Town and Board's contributions represent payments made for premiums for insured individuals.

Funding Status and Funding Progress

The funded status of the plan as of July 1, 2011, the most recent actuarial valuation date, is as follows:

Schedule of Funding Progress						
Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) (b)	Unfunded AAL (UAAL) (b - a)	Funded Ratio (a / b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ((b-a)/c)
<u>Town</u>						
7/1/2011	\$ -	\$ 349,552	\$ 349,552	0.00%	\$ 1,714,614	20.39%
<u>Board</u>						
7/1/2011	\$ -	\$ 1,075,642	\$ 1,075,642	0.00%	N/A	N/A

Actuarial valuations for OPEB plans involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These actuarially determined amounts are subject to continual revisions as actual results are compared to past expectations and new estimates are made about the future.

The schedules of funding progress and employer contributions, presented as required supplementary information following the notes to the financial statements, present multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projection of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial calculations of the OPEB plan reflect a long-term perspective. Consistent with this perspective, actuarial valuations, will use actuarial methods and assumptions that include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

The annual required contribution for the current year was determined as part of the July 1, 2011 actuarial valuation. The actuarial assumptions included:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Actuarial Cost Method
Amortization Method	Level Percent
Remaining Amortization Period	26.27
Actuarial Assumptions:	
Discount rate	4.0%
Investment rate of return	4.0%
Inflation rate	3.5%
Medical cost trend rates	8.0% graded to 5.0% over 6 years

Note 12 - Risk Management

The Town is exposed to various risks of loss related to public official liability, police professional liability, theft or impairment of assets, errors and omissions, injury to employees, natural disasters, and owners and contractor’s protective liability. During the year ended June 30, 2013, deductibles paid by the Town were insignificant. Settled claims, for all types of commercial coverage, have not exceeded commercial insurance coverage during any of the past three fiscal years.

Health Insurance Fund

The Town established as an internal service fund, the health insurance fund, to account for and finance the retained risk of loss for Town employee medical benefits coverage. A third party vender administers the plan for which the fund pays a fee. The health insurance fund provides coverage for all eligible full time employees.

The Town has purchased a stop loss policy for individual claims exceeding \$125,000 for hospital and major medical.

Health insurance premiums are based upon estimates by number of employees and type of coverage, trends in the insurance claims and estimates for administration. The claims liability reported in the fund is based upon the requirements of GASB Statements No. 10 and 30, which require that a liability for estimated claims incurred but not reported be recorded.

The internal service fund liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used to compute claims liability does not necessarily result in an exact amount. Claims liabilities are

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

reevaluated periodically to take into consideration recently settled claims, the frequency of claims, including the effects of specific, incremental claim adjustment expenditures, salvage and subrogation; allocated claim adjustment expenditures are not included.

<u>Fiscal Year</u>	<u>Claims Payable July 1</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claims Paid</u>	<u>Claims Payable June 30</u>
2010-2011	\$ 160,030	\$ 2,271,296	\$ 2,285,150	\$ 146,176
2011-2012	146,176	2,880,600	2,801,569	225,207
2012-2013	225,207	2,222,624	2,306,561	141,270

Retrospectively Rated Policy

The commercial insurance carried for workers' compensation is a retrospectively rated policy for which the Town's contribution is based on the Town's loss experience. It is not possible to estimate the possible loss.

The Town purchases commercial insurance for all other risks of loss, including blanket and umbrella policies. Settled claims have not exceeded commercial coverage in any of the past three years and there has been no significant reduction of insurance coverage from amounts held in prior years.

Note 13 - Commitments and Contingencies

The Town has been named as defendant in various claims and legal actions. The Town's attorney estimates that the potential claims against the Town covered by insurance resulting from such claims and legal actions would not materially affect the financial condition of the Town.

The Town has received Federal and State grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursement to the grantor agency for any expenditure disallowed under terms of the grant. Based upon prior experience, Town management believes such disallowances, if any, will not be material.

The Town has \$1,245,110 in construction commitments outstanding as of June 30, 2013.

TOWN OF WESTBROOK, CONNECTICUT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2013
. . . Continued . . .

Note 14 - Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; workers compensation and natural disasters for which the Town carries commercial insurance. During the year ended June 30, 2013, deductibles paid by the Town were insignificant. Settled claims, for all types of commercial coverage, have not exceeded commercial insurance coverage during any of the past three fiscal years.

Note 15 - Subsequent Event

In August 2013, the Town issued \$5,000,000 in general obligation bonds with interest rates ranging from 2.0% to 4.0% to fund various Town capital improvement projects.

SUPPLEMENTARY INFORMATION

GENERAL FUND

The general fund is the principal fund of the Town and is used to account for all activities of the Town, except those required to be accounted for in another fund. The general fund accounts for the normal recurring activities of the town (i.e., general government, public safety, public works, health, social services, recreation, education, etc.). These activities are funded principally by property taxes, user fees and grants from other governmental units.

**TOWN OF WESTBROOK, CONNECTICUT
SCHEDULE OF DEBT LIMITATION
FOR THE YEAR ENDED JUNE 30, 2013**

Total Tax Collections (including interest and lien fees) for the year ended June 30, 2013:	\$ 23,587,179
Reimbursement for Revenue Loss: Tax relief for elderly	<u>-</u>
Base for Debt Limitation Computation	<u><u>\$ 23,587,179</u></u>

The Connecticut General Statutes provide that the total authorized debt of the Town shall not exceed seven times the above base cash receipts, of \$165,110,253, nor shall the total authorized particular purpose debt exceed the individual debt limitations reflected in the table below:

	General Purpose	Schools	Sewers	Urban Renewal	Pension Deficit
Debt Limitation: (1)					
2 1/4 times base	\$ 53,071,153	\$ -	\$ -	\$ -	\$ -
4 1/2 times base	-	106,142,306	-	-	-
3 3/4 times base	-	-	88,451,921	-	-
3 1/4 times base	-	-	-	76,658,332	-
3 times base	-	-	-	-	70,761,537
Total Debt Limitation	<u>53,071,153</u>	<u>106,142,306</u>	<u>88,451,921</u>	<u>76,658,332</u>	<u>70,761,537</u>
Indebtedness:					
Bonds payable	5,350,000	14,085,000	-	-	-
Authorized and unissued bonds	<u>5,165,000</u>	<u>1,925,000</u>	<u>-</u>	<u>-</u>	<u>-</u>
Net Indebtedness	<u>10,515,000</u>	<u>16,010,000</u>	<u>-</u>	<u>-</u>	<u>-</u>
Debt Limitation in Excess of Outstanding Debt	<u><u>\$ 42,556,153</u></u>	<u><u>\$ 90,132,306</u></u>	<u><u>\$ 88,451,921</u></u>	<u><u>\$ 76,658,332</u></u>	<u><u>\$ 70,761,537</u></u>
(1) The total of the above net indebtedness amounts to:					<u><u>\$ 26,525,000</u></u>

There is no overlapping debt.

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special revenue funds are used to account for specific revenue sources that are restricted, committed, or assigned to expenditures for particular purposes.

School Cafeteria Fund - to account for the activity of the schools' cafeterias.

Special Education Grants - to account for State and Federal education grants.

Dog Fund - to account for dog license fees and receipts and expenditures of the Dog Warden and Dog Pound.

Insurance Fund - to account for Unemployment Compensation claims and the deductible costs of other town insurance plans.

Open Space Preservation Fund - to account for funds for the acquisition of land for open space, protection of natural resources, preservation of Westbrook's small town character.

Westbrook Library Fund - to account for donations made to the Library which could be spent on items, other than those budgeted in the General Fund.

Detention Ponds Fund - to account for all detention pond funds for the purpose of making repairs and replacements to the detention basins or outlet structures.

Westbrook Nurses Fund - to account for all activity of Nurses, including any donations and distribution of scholarships.

Small Cities Repayment Fund - to account for funds the Town received from the Small Cities Program from the Connecticut Department of Housing as a vehicle for loan recipients to repay their loans.

Recreation Concert Series - to account for the funding of concerts on the Town Green on Sunday evenings throughout the summer.

Document Preservation Fund - to account to funds received for the preservation of land records.

Family Fun Day Fund - to account for donations in order to hold two events: Family Fun Day and the Halloween bash.

Land Use Professional Services - to account for funds to pay for hired Professional Service for services required to process all Planning/Zoning/ZBA/IWWC applications.

Local Prevention Council - to account for grants from the Connecticut Department of Mental Health and Addiction Services.

West Beach Playground Fund - to account for donations for the renovations of two playgrounds: Westbrook Beach Playground and the Wren Park Playground.

Senior Center Fund - to account for donations from citizens and organizations that are to be used to provide support to the operations of the Senior Center.

Social Services Fund - to account for donations from citizens and organizations that are to be used to provide emergency assistance to senior citizens.

Town Clerk Fund - to account for fees collected to be used for the preservation and management of historic documents.

Capital Projects Fund

The capital project fund is used to account for the acquisition and construction of major capital facilities (other than those financed by proprietary funds and trust funds).

Bonded Projects - to account for the acquisition and construction of the Town's major capital facilities.

Permanent Fund

The permanent fund is used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the Town's programs.

Library Restricted Gift Fund - to account for various endowments whose earnings are restricted to expenditures for the Library.
